**Alone With Others An Existential**

Existential psychotherapy is a form of psychotherapy based on the model of human nature and experience developed by the existential tradition of European philosophy. It focuses on concepts that are universally applicable to human existence including death, freedom, responsibility, and the meaning of life. Instead of regarding human experiences such as anxiety, alienation and depression as ...

Existentialism (/ˌɛɡzɪˈstenʃəlɪzəm/) is the philosophical study that begins with the human subject—not merely the thinking subject, but the acting, feeling, living human individual. It is associated mainly with certain 19th and 20th-century European philosophers who, despite profound doctrinal differences, shared the belief in that beginning of philosophical thinking.

What is Existential-Phenomenology? What is Phenomenology? "As good a place to begin as any is the meaning of the term phenomenology itself. It is derived from the two Greek words: phainomenon (an "appearance") and logos ("reason" or "word," hence a "reasoned inquiry"). Phenomenology is indeed a reasoned inquiry which discovers the inherent essences of appearances.
