The Illness Narratives: Suffering, Healing, And The Human Condition. Based on twenty years of clinical experience studying and treating chronic illness, a Harvard psychiatrist and anthropologist argues that diagnosing illness is an art tragically neglected by modern medical training, and presents a compelling case for bridging the gap between patient and doctor.

**The Illness Narratives: Suffering, Healing, And The Human ...**  
During the early 1960s, in my second and third years at medical school, I encountered several patients whose powerful experiences of illness, at either pole of the course of life, fixed my interest on the intimate and manifold ways by which illness comes to affect our lives. The first patient was a ...
